SUMMARY

Informatics Engineering graduate from Universitas Surabaya with hands-on experience building web-based business systems for real clients. Developed a Sales & Purchase Information System for FL Beauty and a freelance Office Finance System using PHP, Laravel, and SQL, from requirements gathering to testing and deployment. Seeking a Web Developer role to build reliable applications for everyday business needs.

AREAS OF EXPERTISE

Web Development: PHP, Laravel, HTML & CSS, C#

Database & Tools: SQL, Git, GitHub, Microsoft Office

Data & AI: Python, TensorFlow, Pandas, NumPy, Data Analysis

PROFESSIONAL EXPERIENCE

Web Developer
FL Beauty, Jan 2026 - Jul 2026

- Developed a web-based Sales & Purchase Information System to manage product data, inventory, sales, and purchase transactions.
- Implemented computerized transaction recording to improve data organization and reduce the risk of manual errors.
- Organized product and transaction data to support structured monitoring of sales and purchases.
- Designed system workflows and database structures based on business requirements, and tested system functionality to ensure accurate and reliable transaction processing.

Office Finance System Developer
Freelance, Feb 2026 - Apr 2026

- Designed and developed a web-based financial management system to streamline daily office financial operations.
- Built core features for tracking income, expenses, and transaction records, replacing manual processes with a centralized digital workflow.
- Customized system features and user flows based on direct client requirements to ensure the tool matched real operational needs.
- Conducted iterative testing and debugging throughout development to identify edge cases and ensure accurate, reliable data handling.
- Delivered the project independently as a freelance developer, managing the full cycle from requirements gathering to deployment.

EDUCATION

Universitas Surabaya, Surabaya, Aug 2022 - Aug 2026
Bachelor of Computer Science (S.Kom), *Informatics Engineering*, *specialization in Data Science and Artificial Intelligence*
GPA: 3.351 / 4.00
